VOL. XXXV. NO. 43

ANTIOCH, ILLINOIS, THURSDAY, JUNE 29, 1922

\$1.50 PER YEAR

PRODUCERS ASK \$2.20 FOR MILK

Reject Price of \$1.75 Per Hundred Pounds at Monday's Meeting

ANOTHER MEETING TODAY

At the meeting of the Milk Producers' association and the buyers representing the Chicago dealers at the LaSalle hotel Monday a decided stand for higher prices was taken by the producers in the fluid milk district.

The producers, after listening to talks by bankers and farmers of the district in which the deplorable condition of the milk producers was described, sent in a price of \$2.20 a hundred for their milk to the buyers. The buyers shortly after returned a counter proposition of \$1.75, an increase of 16 cents. The association turned the offer down and a meeting was arranged for today.

The dealers have evidently sensed the determined attitude of the milk farmers to secure more money for their product as well organized propaganda has already been sent out to the fact that the price of milk will probably be increased one cent, and again laying the demand to the farmers.

The milk producers are capable of bearing the blame for the increase to the consumer if the actual cost of production and returns are made known, but when the dealers attempt to "grab" off one-half of this increase then is the time for the farmers to have something to say and also the public.

It is time the producers took a firm stand for living wages and if necessary to carry their fight to the consumers, and if the distributors refuse to give the farmers the price they ask, then it is hoped the producers of this district will demand their officers to take their fight before the public.

Among the Antioch men attending the meeting Monday were: J. E. Brooks, Charlie Sibley, W. D. Dunning, Louis Kufalik and Frank Scott.

Service Charge to Go in Effect

The "service charge" plan, whereby dealers pay organized producers more than they pay individuals will be rigidly applied to the Chicago milk market, according to the officials of the co-operative milk marketing company. Producers are reorganizing the company on the basis of the so-called Sapiro contract.

Dealers are objecting to the demand that signers of the contract be paid more per volume than milk producers who are not members.

The marketing company in a public statement is justifying its demand for the "service charge" on the ground that by their contracts with the dealer, they will guarantee a constant and steady supply of milk; will save the dealers maintaining a staff of solicitors, and will guarantee sufficient milk to insure continuous operation of each milk plant.

Producers won in the first tilt at Beloit recently when three leading Beloit dealers agreed on a differential in favor of the organization of 25 cents on fluid milk and 10 cents on milk used for by-products.

To Open Campaign in Rock and Kane Counties

The first of a series of meetings to organize the field soliciting force in the new Sapiro milk marketing drive is to be held at Geneva, Monday, June 26. Representatives from every township and every important dairy community in Kane county are expected to gather for final instructions and further discussion of the milk contract before starting work.

The second of this series of meetings will be held at Janesville, Thursday, June 29, to inaugurate the drive in Rock county.

Immediately after the meetings, the committee will organize every community for a concerted several-days drive, during which every milk producer will be solicited to sign the new "Sapiro plan" milk contract.

Unclaimed Letter

There is an unclaimed letter at the Antioch postoffice for Joe Paule.

On the Road of Good Intentions

20 Years Ago in Antioch

Thursday, July 3, 1902

Attend the races at the Antioch driving park, July 4.

Supervisor A. N. Tiffany was transacting business in Waukegan, Saturday.

Robert Selter was in Chicago transacting business in connection with the repairing of his steamer which he will put in first class condition.

Born to Mr. and Mrs. Lee Savage, June 27, 1902, a baby girl, weight nine pounds.

Miss Alice Smith, of Waukegan, has been visiting with Mrs. W. F. Zeigler during the week.

Harvey Watson has opened an ice cream parlor in the store occupied by John Engman, where may be found all the daily papers.

There will be a social hop at the Trevor hall Wednesday evening, July 9. Music by Boulden Bros. orchestra. Tickets 50 cents per couple. Floor committee: E. Loth, Camp Lake; Chas. Madden, Wilmet; Chas. Romer, Salem; John Gaggio, Trevor; Dean Wisner, Antioch. Hahn & Loth, proprietors.

Four Races Featured at Fourth of July Celebration

Four harness races will open the racing season at the Lake County fair grounds, Libertyville, on July Fourth and a record crowd of spectators will have the feast of their lives for excitement afforded by racing and two exciting games of red hot baseball. Many who have been attending racing events at Libertyville every year for two or three decades will witness a matinee of speed which will eclipse anything they have ever seen there for real class, as there are sure to be some exciting finishes. These races will be won through games driving and endurance matches on the last turn. Every race is sure to contain many exciting features as the horses are evenly matched and in the pink of condition, ready to respond to the word, go.

The big doling of the day will be the half mile heats which go to make up two of the races, which spells excitement right out loud in open meeting.

Long Dry Spell Brings Oiling of Streets

It now looks as if the residents of Antioch are in a mood for better street conditions after several weeks of dust.

The merchants took the first step by having Main street sprinkled every day. The residents of Lake street then went them one better and contributed money for the oiling of their street. Orchard street residents fell into line last week and have collected enough money to have their street oiled. Charlie Powles, Herb. Ves and O. W. Kettlehut have had the strips in front of their homes and businesses oiled.

Special Dances Featuring Sylvan Beach Pavilion

Special features have been planned for the holidays at Sylvan Beach Pavilion. On Saturday evening a Balloon Dance will be held, while on Sunday evening a Souvenir Dance will be held. Monday evening will be the feature Mardi Gras Dance which will be held. These dances will be the features of the season at Sylvan Beach.

ANTIOCH '9' WINS FROM BURLINGTON

Antioch 4, Burlington 1. Lake Villa 14, Silverlake 2. K. of C. 8, Renehans 4. Grand Billiards 9, McHenry 5. Polonia 27, Waukegan 2.

With a howling mob of fans supporting a real classy ball team proved a victory for Antioch at Burlington last Sunday, bringing home a 4 to 1 score.

Antioch had Burlington on the run all the time and with the help of an autumn wind blowing some snappy plays were pulled off on both teams.

The first inning proved the downfall of the strong Burlington team. Fucik passed Mount and L. Hook hit, sacrificing Mount to second, Burns hit and got to first on an error, then Fucik tried to pull some hooks at first to catch Burns, making a real balk passing Burns to second. E. Hook hit, bringing in two runs. Hook and Malinaro being put out.

Burlington's side to bat. McCarthy first made up hit to E. Hook, putting him out at first, Rubach foul-flied to Fields and Hoffman struck out.

Antioch came back again in the second making another run with one more in the fourth and then eased down to see what Burlington could gather in. It took seven long innings with a few scattered hits before Burlington could get a run in and that came in the eighth when they placed three hits bringing in the one out, the game closing after a long and tiresome afternoon watching a good game of ball, but could have been enjoyed much better if a few of the side shows created by the Burlington team were cut out and which could be handled very nicely, if a little more regards were bestowed upon the umpire.

At no time during the game could Burlington get by with anything, line-drives, flies and fouls were all stopped, even Burns tried to hook one out of the air with his bare hand making a nice stop. Fucik pitched a nice game striking out twelve men and game striking out eight, walking one while Fucik walked four. A nice double play was pulled off by E. Hook to Mount.

One of the outstanding features of the day was the big following of fans that were there to represent the Antioch team, some say two hundred and others three hundred.

Next Sunday the return game will be played on the home grounds with Burlington and from what the scouts tell us they are coming down to beat us.

On the Fourth of July Lake Villa team and all of Lake Villa will come to Antioch ball park and then the rivalry will start.

The schedule for July is as follows:
July 2—Burlington at Antioch.
July 4—Lake Villa at Antioch.
July 9—Wilmet at Antioch.
July 16—Grand Billiards at Antioch.
July 23—Barwell A. G. at Antioch.
July 30—Somers Greys at Antioch, return game.

DEATH OF MRS. SMALL DUE TO TRIAL

Mrs. Ida Small, wife of the governor of Illinois, died at 8:05 o'clock Monday morning at her home in Kankakee.

The end came after a period of unconsciousness that lasted for nearly thirty-six hours. It began with a stroke of apoplexy that followed what probably was the happiest day of her life, the day her husband was vindicated by a jury in the Waukegan courthouse.

She had returned to her home where she had been welcomed by several hundred friends.

The spacious lawn had been festooned with Japanese lanterns, the homecoming band was in fine fettle. There were the neighbors who still call the governor "Len" and called his wife "Ida."

"I feel a little faint, Len," she said, before the last of the visitors had shaken hands.

She was helped into the house and to a couch and almost immediately lost consciousness. It was thought it was only a fainting spell, but when she did not respond to emergency treatment, Dr. E. G. Wilson and Dr. W. A. Stokes, superintendent of the state hospital, were summoned.

They realized the gravity of the case and Dr. Julius Brinkman, of Chicago, a specialist in brain troubles, was rushed here.

At 5 o'clock Sunday afternoon the physicians announced there was no hope—that death was a matter of hours or minutes.

All through the night members of the family and physicians were at her bedside and shortly after 8 in the morning it was announced it was "all over."

The physicians agreed that her condition was directly due to anxiety over her husband during his trial at Waukegan and to the lifting of the strain after long court sessions.

Dr. William A. Stokes, superintendent of the Kankakee State Hospital, and Dr. E. G. Wilson, who had been with her since the collapse, expressed their belief in a signed statement, reading as follows:

"She would have lived a long time but for the trial in Waukegan. She has stood up wonderfully, but her condition is directly traceable to the charges against her husband."

Mrs. Small would have been 61 years old had she lived to December 17, next. She was born six miles north of Kankakee, and had lived her entire life in this community. She was one of six children. Her mother is still living, past 80.

A sister, Mrs. George Vaughn, and a brother, Berton Moore, of Walnut Station, Calif., survive her. A twin sister, Mrs. Ada Gray, died ten years ago in almost the same way that Mrs. Small died, suffering an apoplectic stroke and passing away in a few hours.

"Spiders Six" New Feature at Channel Lake Pavilion

The Channel Lake pavilion will be opened for the season Saturday evening, when there will be dancing every evening. The floor has been enlarged and is considered one of the finest in this section. Many new features have been added, the outstanding feature being the new restaurant.

The pavilion is a resort where a party can spend the entire day enjoying dancing, swimming, boating, bowling and pool and billiards. The meals served are probably the finest in the lake region.

The "Spiders Six" orchestra will furnish the music for the season.

Grayslake Man Dies

Edward Schneider, a well known resident of Grayslake, died suddenly at his home Saturday evening.

The funeral was held Monday afternoon, being in charge of the Woodmen of the World. Mr. Schneider was very well known throughout the entire county.

The explosion of a gas stove at noon Friday caused fire to destroy a lunch room and the front portion of the Willis Inn at Fox Lake. The damage was considerable. Firemen from a volunteer force extinguished the blaze with difficulty.

A MARTYR TO POLITICS

Gov. Len Small

CLAIM AUTO SPEED TRAP ON HIGHWAY

Investigation of numerous fines said to have been exacted from motorists on the Waukegan and Telegraph roads near Lake Forest by Justice of the Peace Henry Fitzgerald and four constables of Shields township in un-der way by Lake county authorities, following complaints by the Chicago and Illinois Motor clubs.

According to Prosecutor A. V. Smith, action was taken following ap-pearance of the thousands of warning cards sent out by the motor clubs advising motorists to beware of a swift traveling touring car on the northern roads.

"Speed Trap," the warning read. "Watch out for officers in Stude-baker and Cadillac cars patrolling in vicinity of Lake Bluff and Lake For-est."

"Complaints have been made that Justice Fitzgerald and his men were using two cars, a Studebaker and a Cadillac, together with motorcycle men," Prosecutor Smith said. "There isn't anything illegal in this. But the complaint has been made that one of the cars was driven along one of the roads slightly above the speed limit."

Motorists following naturally took the pace of the leading car. The other car, trailing along behind, then gave chase and motorist was fined in a highway court.

"I don't know if these charges are true—but if they are arrests will follow."

Justice Fitzgerald made a categori-cal denial of the claims of the motor club officials. "There have been num-erous arrests made," he asserted, "but in each case they were bona fide speeders and their offenses were sworn to by regularly appointed con-stables. There have been a few in-stances wherein fines were accepted away from the justice's offices, but in each case this was done rather than cause the motorist the discomfort of being taken several miles out of his way."

"My office is open to investiga-tion by Prosecutor Smith, and new that these charges have been made I hope the investigation gets under way at once."

"I know there has been no case in my district where any injustice was done to any motorist. Charges that we 'lured' motorists into speeding are ridiculous."

St. Ignatius' Church Notes

Next Sunday is the third Sunday after trinity and the services are as usual at that time, church school at 8:45 in the morning and morning prayer and address at 10:00.

The music next Sunday will be fur-nished by Mr. Fred Fuller, of the church of the Atonement, Chicago.

Everyone is invited to attend, especial-ly lake visitors.

On Friday of this week there will be a card party given at Winch's pavilion for the benefit of the Ladies' Guild.

SMALL IS VINDICATED OF CONSPIRACY

Takes Jury One Hour and Thirty Minutes to Free Governor

THREE BALLOTS TAKEN

Governor Len Small was acquitted by the jury in circuit court Saturday afternoon of charge lodged against him by Attorney General Brundage that he had conspired with Vernon C. Curtis, Fred Sterling and others to defraud the state while treasurer in 1917 of interest on state funds.

After the reading of the verdict, it was announced for the first time that a plot against lives of the governor and his party had been uncovered.

Early in the week, it was stated, ground glass had been found in food served the gubernatorial party at a local hotel. The discovery was made by A. G. Brown and another member of the chief executive's staff. They were dining at a table next to that occupied by Gov. Small and his party. A secret investigation was made and the hotel chef discharged at once, but no evidence was un-earthed which would warrant police action.

Secrecy was maintained concerning the startling discovery to avoid pos-sible disruption of the trial.

The jury was out just one hour and thirty minutes. Three ballots were taken. The first two were 11 to 1 for acquittal. The third ballot was unani-mous.

When the verdict was announced a cheer went up from the court that rocked the room.

Immediately Governor Small was the center of a demonstrative throng that nearly tore his clothes from his back. Mrs. Small, who with grim courage had stood behind her husband all through the long ordeal and who refused to leave him after the jury retired, was jostled and half smothered, but did not complain. Through-out the wildly clamoring mob she smiled back to those she could see, and finally reached the governor's side and quietly pressed his hand.

For fully half an hour the demon-stration continued, and even the jury was engulfed in the melee. Finally Governor Small, who had been using both hands to shake the hands of men, scores that were thrust toward him, reached the jury box and personally thanked each member.

At the first available moment the governor, in an official statement to the people of the state, voiced his happiness over the vindication of his abiding faith that his innocence would be established beyond question.

The demonstration was unprece-dented in the history of the local courts. Cheering, smiling, handclap-ping and shouts of joy continued while the newspaper photographers kept up a perfect bombardment. The club officials, "There have been num-erous arrests made," he asserted, "but in each case they were bona fide speeders and their offenses were sworn to by regularly appointed con-stables. There have been a few in-stances wherein fines were accepted away from the justice's offices, but in each case this was done rather than cause the motorist the discomfort of being taken several miles out of his way."

"My office is open to investiga-tion by Prosecutor Smith, and new that these charges have been made I hope the investigation gets under way at once."

"I know there has been no case in my district where any injustice was done to any motorist. Charges that we 'lured' motorists into speeding are ridiculous."

State's Attorney Mortimer, who, at the direction of Attorney General Brundage, prosecuted the governor; Assistant Attorney General James H. Wilkerson, formerly head of the state public utilities commission under Governor Lowden, that raised the street car fares to 8 cents, and the others of the prosecuting force went at once to their hotel, but declined to make any statement.

The governor and family left at 6:30 o'clock for his home in Kankakee, where home folks were planning a celebration on his arrival. Mr. Small would not indicate what he would do with respect to calling a special ses-sion of the legislature.

While the jury was out State's At-torney Mortimer and Alexander J.

SUCCEEDS WHERE DOCTORS FAIL

Lydia E. Pinkham's Vegetable Compound Often Does That.—Read Mrs. Miner's Testimony

Churubusco, N. Y.—"I was under the doctor's care for over five years for backache and had no relief from his medicine. One day a neighbor told me about your Vegetable Compound and I took it. It helped me so much that I wish to advise all women to try Lydia E. Pinkham's Vegetable Compound for female troubles and backache. It is a great help in carrying a child, as I have noticed a difference when I didn't take it. I thank you for this medicine and if I ever come to this point again I do not want to be without the Vegetable Compound. I give you permission to publish this letter so that all women can take my advice."—Mrs. FRED MINER, Box 102, Churubusco, N. Y.

It's the same story over again. Women suffer from ailments for years. They try doctors and different medicines, but feel no better. Finally they take Lydia E. Pinkham's Vegetable Compound and you can see its value in the case of Mrs. Miner.

That's the truth of the matter. If you are suffering from any of the troubles women have, you ought to try this medicine. It can be taken in safety by young or old, as it contains no harmful drugs.

Made Records for Agents.

A prominent insurance executive decided not long ago that he would talk to about 20,000 agents who write policies for his concern. He could not get them all together, so he concluded to use the phonograph. He prepared an address of 400 words and then made a master record.

This record was duplicated 20 times and a copy was put on the opposite side of the disk. Then these records were mailed to the agents from the Atlantic to the Pacific in the belief that those who did not have talking machines would take the records to a neighbor or to a music store to hear the message.

A Real Benefit.

"How I envy you your group of children," remarked the bachelor to his long-married friend.

"Children certainly do brighten the home," replied the other, gratified.

"What? Oh, yes, of course. But what I was thinking of—look at the tax exemption you can claim on them."

The Novice's Dilemma.

J. B. writes: "Often we amateurs see things coming up in our gardens that we didn't plant, but we are afraid to pull them up for fear we did."—Boston Transcript.

Sesqui-Centennial U.S.A.—1926

INDEPENDENCE CHAMBER
Underwood & Underwood

By VICTOR ROSEWATER

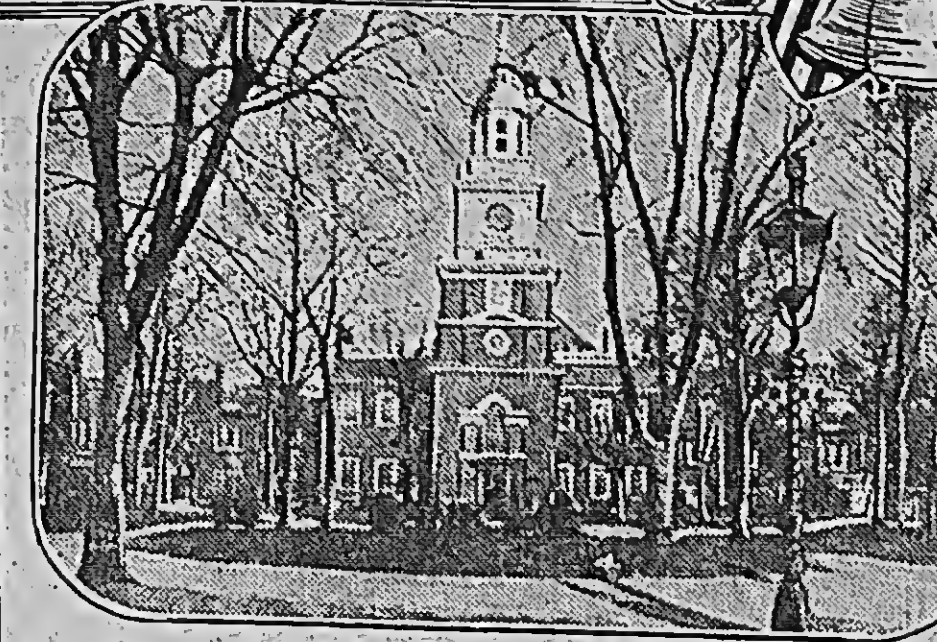

PHILADELPHIA.—Scarcely realizing it, we are approaching the one hundred and fiftieth anniversary of the Declaration of Independence, which, as every school child knows, took place on the Fourth of July, 1776. To some of us that historic event seems already in the dim and distant past—others find it difficult to convince themselves that the unrelenting changes throughout the world following in its wake could have been achieved in so short a space of time. This year the Declaration marks its one hundred and forty-sixth year, but already the scenes are being set for a glorious celebration of its sesqui-centennial, outdoing in impressive magnificence even the epochal Centennial celebration of 1876.

By natural sequence, this celebration is to be held again in the city of Philadelphia as the repository of all the historic backgrounds and landmarks. Here in Philadelphia is Independence hall, centering the group of beautiful colonial buildings stretching a whole block on lower Chestnut street, fully restored and preserved. Here the Continental congress held its sessions and here John Hancock inscribed his name in his big, bold hand so King George could read it without using spectacles. Here is the famous Liberty bell that proclaimed the glad tidings "throughout all the land unto all the inhabitants thereof." Here are the quaint desks and well-worn chairs used by the fathers, and here is one of the original drafts of our American Magna Charta in the fine penmanship of Thomas Jefferson with his own interlineations and alterations. Here are innumerable heritages instinct with the sacred memories of self-sacrificing patriots to whom we are indebted for the achievement of our liberty.

The enduring character of the republic thus established has indeed been vindicated by the severest tests and most fiery ordeals—by the ravages of civil war and the burdens borne for the down-trodden of other lands. Now after a conflict of intensified fierceness such as the world never before witnessed, the principles of liberty upon which our government has been built and developed shone forth more clearly than ever as the beacon light of new nations whose most ardent aspiration, however envious, is to emulate our progress and prosperity. If all this has happened in the period of 150 years, say, if most of this advance has been made in the last 50 years of the 150, what may we not look for in the next 50 years? And how can we guide ourselves better in looking ahead than by reviewing what has been done through a survey of past achievements in the fields of science, art and industry?

This, then, suggests the theme of what is planned for the Sesqui-centennial exhibition as the capstone of the 1926 celebration of the Declaration of Independence. It is to be a great world exposition illustrating particularly the progress made in the 50 years elapsed since the Centennial exposition. In that time things then undreamed of have been brought to pass—the automobile, the airplane, the submarine, the phonograph, the telephone, radio,

INDEPENDENCE HALL.

the electric motor, the typewriter and many others. For this object-lesson of our progress, the preliminary organization of the Sesqui-Centennial Exhibition association, with Mayor Moore president, has been perfected and the site has been selected in the same Fairmount park, though much enlarged, where the Centennial exposition was held.

The states of Pennsylvania, New Jersey and Kansas, by their legislatures, have endorsed the project and taken steps looking to participation, and the President by special message has recommended the necessary congressional action to sanction the issue

of invitations to foreign nations. In this connection it is interesting to note that a score of new governments in Europe and other parts of the world have never before had an opportunity to join in a great international exposition and may be expected to be eager to make a creditable showing. Likewise in the accompanying congresses and conventions for the discussion of world problems noted men possessing the best minds of all the peoples of the earth may be counted upon to be assembled and to render the occasion unique in recording the intellectual development of the past half-century and mapping out what is yet to be accomplished.

The international phase has been stressed most aptly by President Harding, who sees a new era fittingly signified "in which men are putting aside the competitive instruments of destruction and replacing them with the agencies of constructive peace."

"All races and nations," he continues, "have contributed generously to bring civilization thus far on the way to realization of the human commonwealth. Each has contributed of its especial genius to the common progress; each owes to every other a debt which cannot too often be acknowledged. This is the one debt which men may go on forever increasing, with assurance that it will impose no burdens, but only add to their prosperity and good fortune. We cannot doubt that the great international expositions heretofore held have done much to bring to all mankind a feeling of unity in aspiration and of community in effort. Nor can we question, I think, that in this era of larger co-operations and unprecedented eagerness for helpful understandings, there is peculiar reason for emphasizing the thought of mutual support in all the enterprises which promise further advance toward the goal of universal good."

When the Liberty bell tolled its imperishable proclamation it sounded the death knell of tyranny in the American colonies, but the peals have ever since been reverberating over the entire earth and never more effectively than in the recent years. In 1920, we may be assured, the Independence hall with the treasured bell housed in it, cranked though it be, will be the most sought-after exhibit of all—the starting point of that freedom of thought and action by which man has been enabled to advance in 150 years so much farther than he did in all the centuries that went before.

Morris Worthily Honored

Robert Morris, the great American patriot who saved the United States at the most critical point in its history by providing the necessary funds to continue the Revolutionary war against England, but who later in his life was subjected to the humiliation of imprisonment for paltry debts, is honored with a statue that adorns the terrace of the old United States custom house in Chestnut street, below Fifth, in Philadelphia. It was Morris who traveled around Philadelphia, defying a swirling snowstorm and inducing financiers of his time to subscribe to a fund in the aid of the new government.

Morris was a delegate to the Continental congress, and was one of the signers of the Declaration of Independence. When the test came he placed his immense wealth at the disposal of his country, pledging his credit to the amount of \$1,400,000. When the war was over, Morris dabbled un-

successfully in speculation in an effort to recoup his lost fortune, and went to jail for his debts.

There were the Happy Days. Progress is progress, but still, back in the old days a horse could cast a shoe without having to get out in the mud and rain to put on a new one before you could continue your journey; and you never had to walk back 10 miles to the nearest feed store because old Dobbin had run out of hay.—Brooklyn Eagle.

Had Your Iron Today?

AN EXAMPLE OF GOODYEAR VALUE

The 30 x 3 1/2 Goodyear Cross Rib Tire shown here alongside its companion, the 30 x 3 1/2 Goodyear All-Weather Tread Clincher, is a conspicuous example of Goodyear value.

The Goodyear Cross Rib has in it the same high grade Egyptian cotton fabric that goes into the All-Weather Tread Goodyear.

It has a differently designed but long-wearing tread, and it sells for considerably less money.

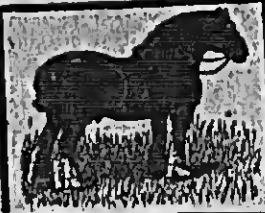

In the past five years more than 5,000,000 of these Goodyear Cross Rib Tires have been sold.

They have everywhere given remarkable service.

Their fine performance and known value have convinced thousands of motorists of the folly of buying unknown and unguaranteed tires of lower price.

Ask your Goodyear Service Station Dealer to explain their advantages.

KEEP THE YOUNG

CHICKS GROWING
As hot weather approaches young chickens need some special attention if they are to continue growing in a satisfactory manner. It is easy to forget this because the chicks are beyond the hood of artificial heat and are foraging for themselves a large part of the time. Be sure that the roosting quarters are well ventilated. Too little fresh air at night may offset a large part of the gains made during the day.

Some poultrymen are reporting excellent results from the use of the "forced roosting scheme" in which a low platform made of lath or hardware cloth serves as a roosting floor. This plan has the advantage that even if they crowd at night those chicks underneath can still get air and will not be smothered.

Keep the mash hoppers and drinking vessels in the shade. Do not expect chickens to stand out in the hot sun while they drink warm water. If possible feed the growing stock separately from the old hens. This assures them of a fair chance at the feed and better growth will result.

—L. E. Card, Poultry Division
U. of I.

COTTONY MAPLE SCALE

This insect attacks soft maples, lindens and occasionally poplars and hard maples. It is very plentiful this year in some localities, especially in Libertyville. It is easily distinguished by the cottony masses covering undersides of twigs and branches during May and June.

The insect passes the winter in the form of a living partly grown female scale. About the time leaves appear the scale begins to grow very rapidly and deposits a large number of eggs which are secreted in a cottony mass of wax which entirely covers its body. This cottony appearance so plainly seen on the trees gives the scale its name. The eggs hatch in June and July and the young scale crawl out upon the leaves to feed. At the approach of cold weather they return to the twigs where the females remain through the winter.

There is no spray that can be used effectively at this season of the year. Spraying with miscible oils early in the spring just before the buds appear is the only time this pest can be controlled. The miscible

oil spray at this time would burn the foliage.
There are a number of parasites that feed on this insect and will have to leave the control to them this year. Early next spring they may be sprayed and check the scale next year.

FORWARD FARM BUREAU!

Many Lake county farmers are going to DeKalb, Ill., June 30, to attend the greatest agricultural event ever staged. That day will celebrate the end of the first ten years of Farm Bureau work, and the beginning of a new lap with still greater possibilities in view.

A big Farm Bureau pageant will be one of the best features of the day. Nearly 2000 people and 50 county floats will take part in this wonderful outdoor play.

The celebration will be held on the large campus of the Northern Illinois Teachers' college at DeKalb and an audience of 20,000 people can be taken care of nicely.

Counties which notify local committees early enough will have space reserved for their delegations.

Seventy-five Lake county members plan to drive to DeKalb. All who can will meet at Barrington at 7:15 standard time, and make up a long string of cars for the trip the rest of the distance.

Better take advantage of the first rainy day to grease up the car and if you have any puncture proof tires put 'em on.

Deserved That Doughnut.

Jenior's mother was baking doughnuts, and he had been given all that was good for him. Upon asking for another it was denied him and he reluctantly went out to play. In a little while the man from the grocery came with a sack of flour on his shoulder. Jenior following him into the house and saw his mother give him a nice big doughnut. He said nothing, but went out to play again. In a few minutes he rapped on the door and was invited to come in, whereupon he opened the door and said, "Hello, I am the grocery man, and here is your groceries, now where is my doughnut?"

Methodist Episcopal Church News

SUNDAY SERVICES:

Sunday School 9:45
Morning Service 11:00
Epworth League 7:00
Evening Service 7:45

A number of the Hickory people took advantage of the free transportation to Sunday school and church at Antioch last Sunday. The autos now leave Hickory church for Antioch at 9:15 every Sunday morning and will take all who gather there or at Bean Hill school house. Everybody desiring to go should notify the pastor not later than Saturday, so it will be known how many autos to send out. It is expected this transportation service will be extended to other communities in all directions from Antioch.

Plans are in preparation for a complete reorganization of the religious education work of the church. Week day religious education is come to be a recognized necessity everywhere. Antioch children must not be left without this provision and so be put under a handicap as compared to the children of other communities. The new plan contemplates week day religious education throughout the year, two to five hours a week during the school year, and a vacation school of religion for four to six weeks in the summer, five days a week, three or four hours a day, with considerable time given to play and recreation as a part of the school program. The church school of religion would also include a church training night for the whole church, when everybody would be studying for the one evening a week in classes in various phases of the religious life and receiving definite training for the several forms of the work of the church. It is hoped that further announcements will be ready soon.

In a consideration of the greatest need of this entire Chicago region, those who have given it most earnest thought are agreed that there is nothing else that this Chicago vicinity so very greatly needs as the supreme need that its people shall come back to the good old way of humble obedience to God. The one need of Chicago region is that everybody sincerely try to find out what God wants and do it; everybody giving attention to God's law and God's will; everybody laying aside work, money-making and pleasure-seeking on the Sabbath day and everybody going to church and worshipping God on the Sabbath day. Everybody around here knows that would do more good than anything else that could happen to all this Chicago station. Why not everybody—why not you, read, take up this program and actually put it into practice?

EVINRUDE

DETACHABLE MOTORS FOR WATERCRAFT

Surprisingly simple—anyone can operate an Evinrude. Just a turn of the flywheel and you're off! No back-breaking oar work to spoil the day's pleasure—an Evinrude turns any small boat into a power boat. You'll want this dependable motor for picnics, bathing and outing parties, fishing and hunting trips—and it really costs you only \$10 a year. Ask us why.

Help You Choose Tires

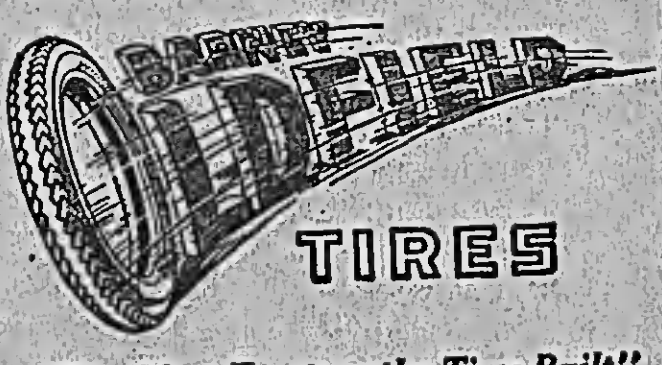

500 miles at 94.48 miles an hour—a relentless grind over a rough-finished, sun-baked concrete and brick pavement at record-breaking speed—that is the gruelling test Oldfield Cord Tires underwent successfully at Indianapolis Speedway May 30th. They were on the winner's car for the third successive year and on eight of the ten finishing in the money, upholding the confidence successful race drivers have in the trustworthiness and ability of these tires to meet the greatest demands of speed, endurance and safety. Their records in every other important race have been equally as good.

Consider this achievement along with another test of Oldfield quality made at Wichita, Kansas, this past winter and early spring.

34,825 miles on rutted, icy Kansas roads, running day and night on a Studebaker stock car without a single tire change. This test was made by a group of Wichita automotive dealers in a tire, oil and gasoline economy run. Mayor Kemp of Wichita was official observer and made affidavit to the mileage and service given by Oldfield tires.

You may never subject your tires to the gruelling experience of Indianapolis nor the steady grind of bad winter roads, but it is good to know you can get such safety and mileage economy by buying Oldfield tires. Ask your nearest dealer.

165% Increased Business
The buying public is the surest barometer of the value of any article. Their approval of Oldfield value has been demonstrated by the increase of 165% in business for the first five months of 1933 over the corresponding period of 1932.

TIRES

Agents Everywhere
Oldfield Tires are distributed through 73 branches and distributors were housed in all parts of the United States. More dealers are constantly becoming Oldfield agencies and Oldfield Tires are now available in your community.

G. LELAND WATSON

JURY FREES SMALL IN 90 MINUTES

(Continued from page 1)

Beaubien, of counsel for the governor, offered the motion that the case against Vernon C. Curtis, indicted jointly with the governor, but accorded a separate trial, be continued.

Mr. Mortimer said he had no objection to that motion and hoped it would meet with the approval of the distinguished presiding jurist.

By this time a smile had spread all over Judge Edwards' face. He pointed to it and said he supposed the counsel had observed that that smile extended from ear to ear. He was happy to grant the motion.

This means that the Curtis case, if it is tried at all, will not be taken up before next fall.

Attorney General Brundage has announced that he would proceed with the civil suit against the governor, regardless of the outcome of the criminal case, but is believed now that the case will not be taken up for some time.

One year ago Saturday Governor Len. Small, in a statement addressed to the people of Illinois, announced his determination of convoking the general assembly in extraordinary session in an endeavor to obtain from it favorable action on two matters of legislation of vital importance to the people of Illinois and, more particularly, of Chicago.

The legislation he desired was Mayor's Thompson's plan for people's ownership of local transportation systems and their operation on 5 cent fares, and the measure to revise the revenue law in such manner as to permit equitable distribution of the burden of taxation.

Ten days later Gov. Small slashed \$7,000,000 from the appropriation bill passed by the fifty-second general assembly. Included in the deductions were allotments of \$688,000 for the office of Attorney General Edward J. Brundage.

July 8, 1921, came an announce-

ment that C. Fred Mortimer, state's attorney of Sangamon county, had, at the direction of Attorney General Brundage, recalled the grand jury in special session, and purposed having it make an investigation into the conduct of the state treasurer's office while it was administered by Governor Len. Small and Lieutenant Governor Fred E. Sterling.

It moved Governor Small to the following comment:

"The schemes and slanders of the character assassins, who are tools of the rich tax dodgers and the traction barons, and those who have been prevented by my veto from looting the state treasury will not deter me from doing everything within my power to carry out the principles upon which I made my campaign, and which I reiterated in my inaugural address."

July 2, 1921, the grand jury returned indictment charging that:

Governor Small, Lieutenant Governor Sterling and Vernon S. Curtis, Grant Park banker, embezzled \$700,000 of the state's funds.

Governor Small embezzled \$500,000 of the state's money.

Lieutenant Governor Sterling embezzled \$700,000 of the state's money. Governor Small, Lieutenant Governor Sterling and Mr. Curtis conspired to defraud the state of \$2,000,000.

Gov. Small replied:

"Attorney General Brundage has succeeded in obtaining this indictment because of the personal fury aroused in him when I refused to permit him to take from the taxpayers' pockets \$1,500,000 for the upkeep of his personal political machine."

Arguments followed before Judge E. S. Smith in the Sangamon county circuit court on the validity of an indictment of a governor while in office. The contention was made that such a procedure was contrary to the constitution, in that it was an invasion of the rights of the executive department of government by the judicial. Judge Smith ruled against the contention and fixed the governor's bonds at \$50,000.

Gov. Small was advised to resist arrest, even though it involved the calling of the militia, but ruled against the suggestion.

August 9, Sheriff Henry Mester and Ora Lennon, a deputy, visited the executive mansion and placed Gov. Small under arrest. The governor offered a bond, but Sheriff Mester

refused to accept it and insisted on the governor accompanying him to the courthouse.

There the bond earlier rejected by the sheriff was accepted.

Gov. Small filed a petition for a change of venue, asserting it would not be possible for him to obtain an impartial trial in Sangamon county, dominated as it was—and is—by the "Dick" Sullivan political machine. October 11 a change of venue was granted to Lake county.

Demand for an immediate and separate trial was made by Gov. Small's counsel. The prosecution exhibited no keen desire for an immediate trial and resisted the application for a separate trial.

Judge Claire C. Edwards granted the motion for a separate trial, and then began preliminary pleading by counsel.

Defense counsel attacked the indictments, and December 29 Judge Edwards ruled out several counts holding the lone embezzlement indictment against the governor valid and directed the trial proceed at once. The governor's attorneys announced they were ready and denounced the case go to trial on the embezzlement charge. The prosecution replied it had a right to indicate on which indictment the governor should be tried.

The KITCHEN CABINET

"The world is good-natured to good-natured folks. To the merry of minds it is full of good jokes. To the light-hearted ones, as they whistle along, it's a happy old world full of whistles and songs."

To the honest and square it's an honest, square place. Where every man's looking you full in the face. But to builders and gents with their tempers unfurled, it's a quarrelling, scrapping and nightingale world."

—T. F. M.

GOOD THINGS FROM DRIED FRUITS.

A marmalade which may be made any time of the year when apples are to be obtained is:

Raisin and Apple Marmalade.—Take two cupsfuls of rinsed and dried raisins; put them through a meat chopper, add one cupful of water, two teaspoonfuls of salt and boil for thirty minutes; just at the boiling point, add one tablespoonful of lemon juice, and two cupsfuls of strained apple sauce, simmer all together for another thirty minutes with one cupful of brown sugar. Put into jelly glasses as usual.

Prune Butter.—Take one pound of well washed prunes, soak over night in water to cover, then cook slowly in the same water until tender, remove the pits and wash through a sieve or, better, a colander; add one cupful of brown sugar, one teaspoonful of salt, one teaspoonful of cinnamon or one-half teaspoonful of grated nutmeg and a little grated orange peel. Cook until thick. Put into glasses as usual.

Apricot Butter.—Take one pound of dried apricots, wash in warm water, cover with six cupsfuls of cold water and let stand for twenty-four hours. Then put over a slow fire and simmer slowly until thick. Add one-fourth of a teaspoonful of salt, three cupsfuls of sugar and one teaspoonful of cinnamon when beginning to boil. The cinnamon may be added just before taking off. Fill the glasses and cover with paraffin when cold.

Cake Filling.—Take one cupful of powdered sugar, one tablespoonful of butter and when well mixed add two tablespoonfuls of hot coffee to moisten. Stir in two tablespoonfuls of cocoa or grated chocolate and flavor with vanilla or cinnamon.

If you are of good character and ambitious write, for further particulars to, H. E. McArthur, Waukegan, Ill. 43w2

Two Fires of Sunday Caused Little Damage

There was a very chilly wind blowing last Sunday, but it didn't seem to bother the people in the village, as there was enough excitement created to keep the average person warm.

The first thing on the program was the gathering of a number of machines which were conveying the local fans to the Burlington-Antioch game, when someone discovered that the depot platform was on fire. An alarm was turned in which brought out the fire department in quick order, but the quick eye of Soo Line Jimmy discovered the trouble and with V. Dupre were the first on the job, with the help of Ed. Turner they managed to put out the fire before much damage was done.

The department returned and placed everything in a readiness for another call. At 3:15 a telephone message was received for help from the L. Barthel home north of town, the burning of a hay stack was the cause of this fire and it threatened the Barthel home. Through the quick action of the fire companies that had not gone to Burlington to witness the ball game, they protected the fire from spreading to the buildings.

With two fire scares of Sunday and the long dry spell we are having with Fourth of July only a few days away is a warning to every man, woman and child to be very careful and to take all possible steps to prevent any fires. All fires have a story connected with them and the majority of fires we find are caused from carelessness.

Moons of the Planets.

A moon is an attendant that circles about the planet of a sun. It is the satellite of a satellite. The distinction between moon and planet is not one of size. Two moons in the solar system—Titan of Saturn and Ganymede of Jupiter—are larger than the planet Mercury, and rival the planet Mars. Many moons exceed the size of the earth. A satellite is held in its orbit by both sun and planet. It is ruled by two masters, and of these the sun is always the stronger partner.

Card of Appreciation

We wish to thank the Antioch Fire department and all those who assisted in protecting our property from fire on Sunday, June 25.

Len Barthel and family

I am taking this opportunity to thank the merchants of Antioch and other friends in their kind assistance in my time of need.

G. A. Peterson.

There's no excuse for getting half sick and run down when Tanlac will make you well, sturdy and strong. S. H. Reeves.

A beautiful reception was tendered Tuesday night by Antioch Chapter No. 428, O. E. S., to a distinguished Grand Chapter officer of the order, sister Helen M. Brakefield, associate Grand Matron, who was the guest of honor and was accompanied by a numerous corps of Worthy Matrons, Worthy Patrons, Associate Matrons and Post officers from many constituent chapters in Chicago and neighboring points; causing Main street, before the temple, to be lined for blocks on both sides with their autos.

Among the other honored visitors present were sister E. May McRay, Grand Treasurer. Brother Chas. H. Soelke, Associate Grand Patron and Mrs. Dora Soelke, Past Matron, sister Elba Dejnack, President of the Associate Grand Matrons club, and sister Maud Nielson, our instructress.

The occasion had been planned for by sister Emma Selter, popular Worthy Matron of Antioch Chapter, and her corps of able officers and was a signal success.

Andrew Wedeen, Larry Fell and Lillia Bartlett were initiated as members and after the initiation ceremonies the evening was devoted to entertainment and merry-making and the presentation of beautiful gifts and gorgeous flowers, which latter there was an abundance, that gave forth a rich fragrance and lent charm and beauty to the surroundings.

An interesting program followed, to which the Misses Mildred Velgel, Irene Kettelhut and Georgie Bacon contributed much appreciated exhibitions of the wonderful art in toe and fancy dancing. Brother Clarence Shultz favored us with two vocal selections which were greatly enjoyed, as was the instrumental music. Delicious refreshments were then served and when the happy party broke

up the stars were twinkling merrily in the morn of another perfect day.

Sister Brakefield remained the guest of the Selters at their home until Wednesday noon when she and her party returned to Chicago.

The Thimble Bee will be at the M. E. church Friday afternoon, June 30.

Salary of Probation Officer Raised to \$2100

The supervisors, who have been playing feather-totter with the salary of the county probation officer, late Thursday afternoon voted to accept the recommendation of the committee on fees and salaries, the majority report being that the salary of this officer be again fixed at \$2,100. The majority report was the recommendation of Supervisors Frank Burke and A. G. Maether.

The board also received a minority report, recommending that the salary of the county probation officer be fixed at \$1,800, but the majority report carried. The minority report was the recommendation of Supervisor H. B. Eger.

At a meeting earlier in the month the supervisors voted to reduce the salary of this office from \$2,100 to \$1,500. This action was followed by the resignation of Miss Mary Polmeteer, county probation officer, the resignation of Miss Mary Polmeteer, county probation officer, the resignation to become effective.

Tanlac is a scientific triumph. Results prove it. S. H. Reeves.

Notice of Award of Contract for Paving Improvement

Public Notice is hereby given that contract for the grading, drainage and paving of Main street, Antioch Special Assessment Docket number seven, as provided by ordinance passed and approved on the 3rd day of February, 1922, has been awarded to A. E. Rutledge, the bid of the said A. E. Rutledge, being Eighty-nine Thousand Five Hundred Seventy-four and 60/100 (\$89,574.60) dollars.

Unless the owners of a majority of the frontage of the lands or lots abutting on said improvements or their agents, within ten days after the first publication hereof shall elect to take the said work and enter into a written contract to do such work at ten per centum less than the price at which the same has been awarded, a contract will be entered into with the said A. E.

Rutledge to construct said improvement at the price aforesaid.

Dated at Antioch, Illinois, this 27th day of June, A. D. 1922.

Frank R. King,
William Hillebrand,
H. J. Vos.

Board of Local Improvements of the Village of Antioch, County of Lake and State of Illinois.

E. M. Runyard, Attorney.
Harry Isaacs, Secretary.

Racine saloons are "dying of thirst." Less than 50 proprietors of soft drink emporiums have applied for licenses this year. In 1921 there were 110. When prohibition first took effect Racine claimed a maximum of 154 saloons.

Month When the Earth Stirs. March is a month when the needle of my nature dips toward the country. I am away, greeting everything as it wakes out of a winter sleep, stretches arms upward and legs downward, and drinks goblet after goblet of young sunshine.—James Lane Allen.

LOW SHOES

That appeal to those who are looking for style and quality at popular prices.

WE CAN SAVE YOU MONEY

Why pay exorbitant prices when we can supply you with just what you have been looking for at very reasonable prices.

There Never Was Any Real Excuse for Profiteering

Our policy has always been to give good values at a fair price. Our constantly increasing number of satisfied patrons is a great satisfaction to us. If you are not one of these we invite you to come in and let's get acquainted.

Mrs. J. Gallagher, of Burlington, were entertained by Mrs. J. Carey, Friday.

Rev. Milcheski, of Chicago, has been spending the past two weeks with Rev. J. Brasky.

W. Carey and daughter Blanche spent Thursday in Milwaukee.

Mrs. M. Anderson is visiting Mr. and Mrs. F. Kruckman this week. Sunday Mr. and Mrs. Kruckman and Dale and Mrs. Anderson motored to Lake Geneva and Bristol.

Mr. and Mrs. Tom Fuzon, of New York, are expected to arrive Friday for an extended visit with the latter's parents, Mr. and Mrs. E. Wright.

Among those who went to Chicago, Saturday, to attend the wedding of Elizabeth Richards, a niece of Mr. and Mrs. F. Beck, of Wilmot, and Harold Reed, of Richmond, were Mrs. F. Beck, Mrs. A. Schramm, of Richmond, Mayme May, of Antioch, Doris Ganzlin, Violet Beck, Wilmot, John Hasselman and George Morris, of Richmond. Violet Beck was a bridesmaid.

Mr. and Mrs. E. E. Wright, Mrs. C. Phillips, Mrs. F. Westlake, Mrs. G. Faulkner and Mrs. F. Faulkner attended church services at Salem, Sunday.

Ruth Morgan returned to Madison, Sunday, for the summer school at the university. Miss Morgan has been engaged to teach French at the Stoughton high school next year.

Richard Klare returned to Madison, Friday, after spending several days with his aunt, Miss S. Runkel.

Mr. and Mrs. A. Reynolds spent Sunday in Kenosha.

August Smith had his house wired for electricity last week.

Mrs. John Moran spent the last of the week with Mr. and Mrs. Ambrose Moran, of Kenosha.

Mrs. John Beath and Andrew, of Chicago, have been at the home of Mr. and Mrs. H. Boulden this past week.

Earl and Robert Durkee returned to Chicago for the summer last week.

Mrs. James Buckley and Dorothy were in Chicago a few days the first of the week.

Mr. and Mrs. Lubkema and children, of Bristol, were Sunday visitors with Mr. and Mrs. John Gauger.

Mr. and Mrs. W. Volbrecht enter-

tained Mr. and Mrs. Fred Volbrecht and children, of Bassett and Paul Volbrecht, of Antioch, on Sunday.

Mrs. Lena Hasselman and Mrs. H. Hasselman spent Friday in Burlington.

Elsie Harms, of Burlington, was an over Sunday guest of her sister, Mrs. H. Hasselman.

Mrs. Knutson returned from Channahon lake, Friday.

Mrs. Harry McDougall spent Friday in Kenosha.

Mrs. Copper and daughters Gertrude, Paulina and Ellen, of Aurora, are the guests of Mrs. Wm. Stensel this week. Sunday they were all guests of Mr. and Mrs. J. Smith, of Trevor, and Tuesday was spent with relatives at New Munster and Slade's Corners.

Mrs. W. Lewis was in Kenosha, Monday.

Mrs. J. Beath and Andrew and Mary Boulden spent Saturday at Burlington.

Somers Defeats Wilmot
Somers defeated Wilmot in the ninth inning, Sunday, by driving across two runs after two men were out. The final score was 7 to 6 and the contest was close throughout.

The undefeated Lake Villa team comes to Wilmot next Sunday afternoon and a rousing game is assured.

Mr. and Mrs. Harry Choate, professional directors, who are staging the home talent play "A Trial by Hearis," the companion play to "Way Down East," are staying with Mr. and Mrs. A. Williams.

At the annual school meeting of the U. F. H. school district Monday evening Geo. Dean, Jr., of Bassett, was elected as treasurer and director to succeed Mr. Bassett who has served in that capacity for several terms.

Mr. and Mrs. R. Ihlenfeldt and sons returned Monday from a four day auto trip to Algoma, Wis.

Prin. R. S. Ihlenfeldt left on Tuesday for Madison where he has enrolled in the summer school at the university.

"Trial of Hearis"

Thursday and Friday nights of this week residents of Wilmot and vicinity will have an opportunity to see the great four act rural drama "Trial of Hearis," a companion picture to "Way Down East," which is to be given at the Woodman hall for the benefit of the new gymnasium by the Wilmot Dramatic Co. The play is under the able direction of Mr. and Mrs. Henry Choate, professional directors and they will both carry leading parts in the play. Other characters are to be taken by Marie Mattern, Vera Schutcke, Mrs. A. Williams, Stanley Stoen, Lynn Sherman, Lyle Kerkoff and Earl Swenson. Specialty number will be a vocal solo, Mrs. Lewis; musical reading, Mrs. Choate, Berry Pickers quartette. Mrs. R. E. Ihlenfeldt will act as pianist.

Fred Hanneman, of Milwaukee, was in Wilmot, Monday.

Ermine and Irving Carey motored to Milwaukee, Friday.

James Carey made a business trip to Milwaukee, Monday.

How did your neighbor's last bargain tire turn out

PROBABLY you know at least one car-owner who is always on the look-out for the cheapest tires he can find. He likes to get them by mail or at a sale or at some place where they have big red bargain signs over the door.

It would be fine if he could get "the edge" in every tire trade.

But the dealer can't afford to let him have it.

Even if a man saw any slight percentage in tire shopping at all—it disappeared when the "Usco" brought the price down.

A standard product—and the dealer sells it with pride.

A good tire. The dealer has no desire to trade you into a larger profit for himself.

United States Tires are Good Tires

Copyright 1927 U. S. Tire Co.

An out-in-the-open tire. The dealer sells you confidence, not price. He wants you satisfied with performance and value. The only way he knows to get your business is to deserve it.

This is the "Usco" idea.

Compared with the ten-minute thrill of the bargain appeal, the "Usco" is just plain common-sense.

No tax charged on this 30x3 1/2 "USCO"

At a meeting of the L. V. T. C. A. last week the date for the annual Lake Villa day was set and a two day session was planned for, as it will be bigger and better than before and that is saying a good deal. Keep in mind these dates August 11 and 12.

Fred Hamlin is making extensive repairs and improvements on his home, and has torn away the old porch, making a more modern one and will stucco the whole building. A colony of bees had made their home about the place, and a quantity of honey was taken out.

These are trying days for many people. They find it so hard to divide their time between radio sets, tennis sets and onion sets.

The Russian currency has been devalued to one-twentieth of its face value, but it hasn't caught up with the government, at that.

The city chap who thinks he can make his garden any should be put in a cage with the man who thinks he understands women.

The papers tell of an insurrection against the Albanian government. This is chiefly interesting in revealing the unsuspected fact that Albania has a government.

Our idea of the spineless man is the one who can't help tipping the hat-checking girl when he knows the money goes to the man who rents the concession.

An electric shock has been arranged to prevent fish leaving a stream in flood time and perishing later in the fields. The electric shock tends to keep them informed as to where the current is.

THE KITCHEN CABINET

"My candle burns at both ends; It will not last the night; But oh, my friends! It gives a lovely light."

EVERYDAY GOOD THINGS

A good dish of beans may be prepared in a short time if the following is used:

Baked Beans.—Wash and soak a pound of lima beans over night. In the morning put them on in plenty of water and simmer until tender, then drain and put into a bean pot or baking dish with salt, pepper, and one-fourth of a pound of bacon which has been put through the meat grinder, a tablespoonful of salt, two tablespoonfuls of molasses and one tablespoonful of grated onion. Add enough water to come to the top of the beans and bake until a golden brown.

Raisin Bread.—Take one cupful of cornmeal, graham flour and rye flour, two and one-half cupfuls of milk, one-half cupful of molasses, one cupful of seedless raisins, one teaspoonful of salt, two tablespoonfuls of soda. Mix and beat well. Brush a mold with butter, fill it two-thirds full and steam three and one-half hours. Then place in a hot oven for fifteen minutes to dry off, removing the cover of the mold.

Lemon Butter for Tarts.—Put over one cupful of water in a saucepan; when boiling hot add one tablespoonful of flour mixed with a little cold water to pour, cook until smooth, then beat ten minutes. Add an egg which has been beaten with one-half cupful of sugar and a little salt. Bring to the boiling point, add the rind from a lemon finely grated and three tablespoonfuls of juice. Remove at once from the heat and beat two minutes. When cold it is ready to fill tart shells.

Minced Lamb Sandwiches.—Take two cupfuls of lean cooked lamb

chopped, add two tablespoonfuls of capers ground with the meat, one-fourth of a teaspoonful of paprika, one-half teaspoonful of dry mustard and one teaspoonful of salt. Mix well and spread on slices of brown or whole wheat bread which has been buttered.

Frosting.—Take three cupfuls of confectioner's sugar, one whole egg, three tablespoonfuls of cream. Add the sugar to the other ingredients a little at a time. Spread on the cookies when nearly cold.

Radio sets are getting cheaper because, perhaps, of the improved methods of manufacturing wireless.

That contemporary who doubts whether radio will ever be as interesting as a party line never tried radio.

Those speaking movies will be no great boon to the man who goes because he wants to give his ears a rest.

A man with the title of "Major" admits that he has deceived 75 women. Such strategy deserves the title of general.

Brunettes marry first, according to a writer. There had been an idea that the blonds have a shade the better of it.

According to the Scientific American, some elites breed thunderstorms. And some, unfortunately, do far worse than that.

Tchitcherlin would make no ideal player on an international football team, as he has blocked everything coming his way.

What has become of the old-fashioned young man who used to be horrified when flappers were spoken of as chickens?

Maybe the object of the prisoner who came into court carrying a ukulele was to prove to the judge that he couldn't play it.

Cheerful Minds.
We are prone to think of contentment and happiness as things afar off which require much striving for, while all the time they may be close at hand if we will but keep our eyes and minds open. True contentment means cheerfulness of mind and nothing can foster that more than little moments of happy contact with other cheerful minds.

Strange, It True.
"Seeing a small globe of the earth on our library table," writes a fan magazine reader, "our neighbor's little boy remarked, 'The one we have in school is lots bigger than that—it's life size.'"
